07359 159 353 | aryanguptas93@gmail.com | linkedin.com/in/aryan-gupta-260b72195 | Willenhall, West Midlands | Full UK Driving Licence

PROFESSIONAL SUMMARY

First Class BSc (Hons) Cyber Security graduate from Birmingham City University (74.56%, June 2026) with hands-on experience in IT support, Windows and M365 administration, Active Directory, networking, hardware troubleshooting, vulnerability assessment, penetration testing and digital forensics. Built and deployed a SOC home lab with Wazuh, Sysmon and TheHive. Completed Infrastructure Technician Level 3 (course) with iMeta. Comfortable working independently, communicating clearly with non-technical users and taking full ownership of problems through to resolution.

KEY SKILLS

- Windows 10/11, M365, Active Directory, Group Policy
- Desktop, laptop, printer and device setup and support
- Vulnerability scanning: OpenVAS, Nessus, OWASP ZAP
- Penetration testing: Nmap, Metasploit, Burp Suite, Kali
- Digital forensics: FTK Imager, Autopsy, ACPO guidelines
- SIEM and EDR: Wazuh, Sysmon, TheHive
- TCP/IP, DNS, DHCP, VLANs, subnetting, Wireshark
- Linux (Ubuntu and Kali) command-line and administration
- Python scripting and automation, Flask, REST APIs
- Docker, VirtualBox, VMware
- MITRE ATT&CK framework and cyber kill chain
- Reliable, organised and clear communicator under pressure

KEY ACHIEVEMENTS

- Built and deployed a fully functional SOC home lab on cloud infrastructure using Wazuh, Sysmon and TheHive, documented on GitHub.
- Built and deployed a full-stack automated vulnerability scanning platform end-to-end as sole developer with Docker Compose deployment and full documentation.
- Achieved First Class Honours (74.56%) in BSc Cyber Security while working part-time throughout all three years.
- Completed a multi-tier CTF penetration test exploiting six vulnerabilities and extracting secrets from a restricted network segment.

PROFESSIONAL EXPERIENCE

Crew Member

May 2025 — Present

Popeyes Louisiana Chicken, Gallagher Retail Park, Wednesbury

- Delivered fast, friendly and accurate customer service in a high-footfall branded food outlet, consistently maintaining a positive and welcoming manner.
- Operated tills and processed cash and card transactions accurately, handling customer queries and complaints professionally.
- Prepared and served food to brand standards, maintaining food hygiene and safety requirements at all times.
- Kept front-of-house and service areas clean, tidy and presentable, restocking and replenishing throughout every shift.
- Worked closely with colleagues during busy peak periods to keep service running smoothly and waiting times low.
- Trained new team members on service procedures and till operation.

Career Break

May 2022 — May 2025

Full-time education

- Completed HE Diploma in Computer Science and BSc Cyber Security at Birmingham City University, graduating with First Class Honours.

Temporary Mechanic

Jan 2022 — Apr 2022

Dhanoa Garage, Willenhall, WV13 2HP

- Technical diagnostics and component replacement, developing hands-on fault-finding skills transferable to IT hardware support.

Warehouse Operative

Sep 2021 — Apr 2022

- Maintained accuracy and efficiency under operational pressure with reliable attendance throughout.

PERSONAL PROJECTS

SOC Home Lab <i>Wazuh 4.12, Sysmon, TheHive 5.5, Docker, Vultr Ubuntu 24.04</i> • Built a fully functional SOC home lab on Vultr cloud infrastructure, deploying Wazuh 4.12 for SIEM and EDR, Sysmon with Olaf Hartong sysmon-modular config for Windows event telemetry, and TheHive 5.5 via Docker for case management. • Configured detection rules, log ingestion pipelines and alert use cases. Full setup documented on GitHub at github.com/StrawHat-Aza/soc-home-lab.	2025
Nayra.exe — Windows Automation Tool <i>Python, Windows API, PowerShell, Registry</i> • Built a Python automation tool with UAC elevation, Windows Registry manipulation, PowerShell WinRT API integration and file magic byte validation.	2025
Jarvis — AI Terminal Assistant <i>macOS, zsh, Ollama</i> • Local LLM terminal assistant with command confirmation before execution and automated shell history sanitisation.	2025

ACADEMIC PROJECTS

Honours Project — Automated Web Vulnerability Scanner <i>Python, Flask, OWASP ZAP API, Docker</i> • Full-stack automated scanning platform with risk-categorised dashboard, Docker Compose deployment and full documentation.	2024 — 2026
Ethical Hacking CTF — Multi-Tier Penetration Test <i>Kali Linux, Metasploit, Chisel, Burp Suite</i> • Exploited six vulnerabilities across DMZ, Corporate and Restricted segments including RCE, SSTI and IDOR with network pivoting via Chisel SOCKS tunnelling.	2024 — 2025
Digital Forensic Investigation <i>FTK Imager, Autopsy</i> • Full forensic acquisition and analysis following ACPO guidelines with chain of custody and formal investigation report.	2024
Multi-Site Network Design <i>Cisco Packet Tracer</i> • Enterprise network across three sites: VLANs, EtherChannel, DHCP, inter-VLAN routing and port security.	2024

EDUCATION AND TRAINING

Infrastructure Technician Level 3 <i>iMeta, Cohort CIT 19</i>	2025 — 2026
BSc (Hons) Cyber Security <i>Birmingham City University First Class Honours (74.56%)</i>	2023 — 2026
HE Diploma — Computer Science <i>Walsall College Pass (60 Credits)</i>	2022 — 2023
City and Guilds Level 3 — Automotive <i>Walsall College</i>	2019 — 2022

CERTIFICATIONS

- Ethical Hacker — Jan 2025 | Cyber Threat Management — Mar 2025
- CCNA: Switching, Routing and Wireless Essentials — Jan 2025 | Introduction to Network Analysis — Oct 2025
- Pre Security Learning Path — Sep 2025 | CCNAv7: Introduction to Networks

HOBBIES AND INTERESTS

Gaming | Karate | Coding in spare time
